All Five ExOne North American Production Service Centers Now Certified for ISO 9001:2008

- ExOne's Troy, Mich. and North Huntingdon, Pa. facilities join Auburn, Wash.; Houston, Texas; and Las Vegas, Nev. in full ISO 9001:2008 Certification
- All PSCs noted for quality management systems that meet ISO requirements

NORTH HUNTINGDON, Pa., Feb. 10, 2015 (GLOBE NEWSWIRE) -- The ExOne Company (Nasdaq:XONE), a global provider of three-dimensional printing machines and printed products to industrial customers, today announced that its production service centers (PSCs) in North Huntingdon, Pa. and Troy, Mich. have been certified to ISO 9001:2008 as Industrial Additive Manufacturers by DAS Certification. With the latest two facility certifications, all five of ExOne's PSCs in North America now have ISO certification, joining ExOne's other PSCs in Auburn, Wash., Houston, Texas, and Las Vegas, Nev. ISO 9001:2008 certification designates that the ExOne North Huntingdon and Troy facilities' quality management systems conform to the specific requirements of the ISO (International Organization for Standardization).

The ISO 9001:2008 standard is based on eight quality management principles, including a strong customer focus, commitment of top management, a process approach and continuous improvement. Receiving ISO 9001:2008 certification helps ensure that ExOne's customers receive consistently high quality products and services. To achieve the certification, ExOne had to demonstrate its consistent ability to provide products that meet customer and applicable statutory/regulatory requirements, while enhancing customer satisfaction through the effective application of the system. This includes processes for continuous improvement and the assurance of conformity to customer and statutory/regulatory requirements.

"Receiving ISO certification demonstrates that ExOne's binder jetting 3D printing technology consistently meets our customers' expectations and product quality standards for industrial usage," said Tim Pierce, ExOne's U.S. Chief Operating Officer. "By earning this certification at all of our North American facilities, ExOne customers recognize that they can achieve a high-level of service and quality regardless of their business region or printing application."

ISO is the world's largest developer of voluntary international standards. ISO 9001:2008 establishes the criteria for a quality management system and is implemented by more than one million companies and organizations in more than 170 countries.

About ExOne

ExOne is a global provider of 3D printing machines and printed products, materials and other services to industrial customers. ExOne's business primarily consists of manufacturing and selling 3D printing machines and printing products to specification for its customers using its in-house 3D printing machines. ExOne offers pre-production collaboration and print products for customers through its eight PSCs, which are located in the United States, Germany, Italy and Japan. ExOne builds 3D printing machines at its facilities in the United States and Germany. ExOne also supplies the associated materials, including consumables and replacement parts, and other services, including training and technical support, necessary for purchasers of its machines to print products.

Safe Harbor Regarding Forward Looking Statements

This news release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended.

Forward-looking statements are subject to risks, uncertainties and assumptions and are identified by words such as "expects," "estimates," "projects," "typically," "anticipates," "believes," "appears," "could," "plan," and other similar words. Such statements include, but are not limited to, statements concerning future revenue and earnings, involve known and unknown risks, uncertainties and other factors that could cause the actual results of the Company to differ materially from the results expressed or implied by such statements, which include our ability to qualify more materials in which we can print; the availability of skilled personnel; the impact of increased operating expenses and expenses relating to proposed acquisitions, investments and alliances; our strategy, including the expansion and growth of our operations; the impact of loss of key management; our plans regarding increased international operations in additional international locations; sufficiency of funds for required capital expenditures, working capital, and debt service; the adequacy of sources of liquidity; expectations regarding demand for our..."
industrial products, operating revenues, operating and maintenance expenses, insurance expenses and deductibles, interest 
expenses, debt levels, and other matters with regard to outlook; demand for aerospace, automotive, heavy equipment, 
energy/oil/gas and other industrial products; the scope, nature or impact of acquisitions, alliances and strategic investments and 
our ability to integrate acquisitions and strategic investments; liabilities under laws and regulations protecting the environment; 
the impact of governmental laws and regulations; operating hazards, war, terrorism and cancellation or unavailability of 
insurance coverage; the effect of litigation and contingencies; the impact of disruption of our manufacturing facilities or PSCs; 
the adequacy of our protection of our intellectual property; material weaknesses in our internal control over financial reporting 
and other factors disclosed in the Company's Annual Report on Form 10-K and other periodic reports filed with the Securities 
and Exchange Commission. Because they are forward-looking, these statements should be evaluated in light of important risk 
factors and uncertainties.

Should one or more of these risks or uncertainties materialize, or should any of ExOne's underlying assumptions prove 
incorrect, actual results may vary materially from those currently anticipated. The Company disclaims any obligation to update or 
publicly announce any revisions to any of the forward-looking statements contained in this news release.
